IN-PERSON

Through interdependent study with other learners, motivated students will explore and develop their language and cultural competencies. You will also learn about history, art, and culture of the target language's linguaphone world in an engaging and welcoming learning environment.

The UW is one of the first universities in the world to offer a program using the novel approach called Facilitated Interdependent Language Learning (FILL). This is not a traditional independent study. Students receive regular support and interaction with a trained linguist facilitator/instructor and other learners. The FILL program is open to all degree-seeking UW students. *Offered AUT / WIN / SPR*
